

Environmental Studies Major Worksheet

Name:

ID:

Other Majors/Minors:

Class:

TERM

Prerequisites (Please check one from each category)

Math 3 Math 10 or equivalent statistics course:
Chem 5 Phys 3 Biol 16 Ears 1 or approved equivalent course:
Econ 1 Econ 2

REQUIREMENTS (10 total courses)

Introductory Courses (both required)

ENVS 2 (Introduction to Environmental Science) or the equivalent

It is possible to substitute other course combinations for ENVS 2 on a two-for-one basis. The following may be combined with Biology 16: EARS 1, 6, ENVS 12 or GEOG 3. If BIOL 16 is taken as a partial substitute for ENVS 2, it may not be used as a prerequisite

Two-for one Course: Term:
Two-for one Course: Term:

ENVS 3 (Environment and Society: Towards Sustainability?)

It is possible to substitute other course combinations for ENVS 3 on a two-for-one basis.

Two-for one Course: Term:
Two-for one Course: Term:

Core Courses (Please check one from each category)

Environmental Science

ENVS 20 (Conservation of Biodiversity), ENVS 25 (Agroecology) or
ENVS 30 (Global Environmental Science)

Economy and Environment

ENVS 55 (Ecological Economics) or ENVS 56 (Environmental Economics and
Governance)

Environmental Governance

ENVS 61 (Governing the Environment), ENVS 65 (Global Environmental Politics) or
ENVS 67 (Political Ecology)

Critical Issues in Environmental Studies (Please choose one)

These courses employ interdisciplinary approaches—integrating aspects of the natural sciences, social sciences and humanities—to understand historical and contemporary environmental problems

ENVS 11 (Humans & Nature in America), ENVS 12 (Energy and the Environment),
ENVS 15 (Earth's Cold Regions), ENVS 17 (Marine Policy),
ENVS 18 (Indigenous Env Studies) or ENVS 28 (Global Environmental Health)

Elective Focus Courses

Three related and relevant non-introductory (i.e., 10 or above) courses, at least one from ENVS. Courses from outside the ENVS Program may be used with permission of an ENVS Major Advisor.
